# Healthcare Admin *Resume & LinkedIn* Kit

A bullet-point formula with real examples, the keywords recruiters search for, a LinkedIn checklist and message templates that get replies.

06

**Nikhila (Nikki) Mamanduri**
Healthcare Operations Manager · MHA, CAPM

THE FORMULA

# Every bullet: action + what + result.

Recruiters skim. A bullet that starts with a strong verb, says what you did and ends with a number gets read. Here are real examples from my own resume:

| Weak | Strong |
|---|---|
| Responsible for scheduling and billing. | Managed insurance verification, prior authorizations, CPT/ICD-10 coding and billing workflows, **reducing claim denials by 20%** and administrative bottlenecks by 28%. |
| Helped with patient scheduling. | Improved throughput by **25%** and cut scheduling conflicts by **15%** by redesigning scheduling workflows. |
| Did patient education. | Reduced catheter usage from **24% to 10%** by educating dialysis patients on access placement. |
| Worked on staffing. | Reduced employee turnover by **14%** through improved staff scheduling. |
| Helped with audits. | Ran monthly medical-record and QM audits for **100% compliance** on new admissions. |

**No numbers yet?** Use scale ("for a 12-provider clinic"), frequency ("120+ patients a week"), speed ("same-day"), or outcome ("zero findings in survey"). Estimate honestly and be ready to explain.

### Strong verbs for healthcare operations

Streamlined · Coordinated · Implemented · Standardized · Reduced · Improved · Led · Launched · Mapped · Audited · Trained · Negotiated · Automated · Analyzed · Partnered

GET FOUND

# Keywords recruiters search for

| Area | Keywords |
|---|---|
| Operations | Workflow optimization · SOP development · Process improvement · KPI reporting · Change management · Performance management |
| Patient access & revenue | Scheduling · Insurance verification · Prior authorization · Revenue cycle management · CPT/ICD-10 · Claim denials |
| Compliance & quality | HIPAA · OSHA · Quality management (QM/QAPI) · Audits · Survey readiness |
| Systems & data | Epic · Meditech · Kronos · Tableau · SQL · Dashboards · Excel |
| Leadership | Cross-functional teams · Stakeholder management · Project management (CAPM/PMP) · Training |

Mirror the exact words in each job description where they're true for you — many employers screen with software first.

## One-page resume layout

| Section | Tips |
|---|---|
| Header | Name, credentials (e.g., MHA, CAPM), city/state, phone, email, LinkedIn URL. |
| Summary (2–3 lines) | Who you are + your strongest result + what you're looking for. |
| Experience | Most recent first. 3–5 formula bullets per role; most impressive first. |
| Education | Degree, school, year; GPA if strong; relevant projects or leadership. |
| Certifications & skills | CAPM, HIPAA/OSHA training, systems you've actually used. |
| Leadership & volunteering | Student orgs, hospital volunteering, events — these matter early in your career. |

LINKEDIN

# Profile checklist

- [ ] **Headline** = role + specialty + proof. Example: *Healthcare Operations Manager · MHA, CAPM · Building better systems for patients and teams*.
- [ ] **Professional photo** and a banner that says what you do.
- [ ] **About section**: 3 short paragraphs — your story, what you're great at (with one number), what you're looking for.
- [ ] **Experience** mirrors your resume bullets, with numbers.
- [ ] **Featured**: a project, article, presentation or certificate.
- [ ] **Skills** pinned to your top 3 job keywords.
- [ ] **Post** once or twice a month: what you learned, an event you attended, a win for your team.

TEMPLATE · CONNECTING WITH AN ALUMNUS

Hi [Name] — I'm a [current MHA student / healthcare admin professional] at [school/org], and I noticed you work in [area] at [org]. I'm building my career in healthcare operations and would love to hear how you got there. Would you be open to a 15-minute chat in the next few weeks? Thank you!

TEMPLATE · FOLLOWING UP AFTER AN INTERVIEW

Hi [Name], thank you for your time today. I enjoyed learning about [specific challenge] and I'm excited about how my experience with [relevant result] could help. If it's helpful, I'd also welcome 2–3 sentences of feedback whatever the outcome. Looking forward to next steps!

TEMPLATE · ASKING FOR A REFERRAL

Hi [Name], I hope you're well! I'm applying for the [role] at [org] (link). Given my work on [result], I think I'd be a strong fit. Would you be comfortable referring me or pointing me to the hiring manager? Happy to send my resume and a short summary.

NEXT STEP

# Want feedback on *your* resume?

Book a free 30-minute mentoring chat and bring your resume or LinkedIn profile — I'll share honest, practical feedback for healthcare operations and admin roles.

| Session | Length | Price | Best for |
|---|---|---|---|
| **Intro call** | 15 min | Free | Say hello and see if we're a fit. |
| **Mentoring chat** | 30 min | Free | Career questions, MHA advice or a resume review. |
| **Working session** | 60 min | On request | A focused session on your clinic or project. |

**About Nikki.** Nikhila (Nikki) Mamanduri is a Healthcare Operations Manager at Medi-Weightloss® Thousand Oaks with an MHA from the University of New Haven (3.79 GPA) and PMI's CAPM®. She has worked across medical devices (Relisys), dialysis (U.S. Renal Care), academic medicine (Tufts Medicine) and clinic operations, and believes better systems create stronger teams — and a better experience for every patient.

This guide shares general operational practices for educational purposes. It isn't legal, billing-compliance, immigration or medical advice — check payer rules, your organization's policies and the relevant authorities for your situation.
